# REVIEWED AND RELIABLE RESOURCES

---

## PEER-REVIEWED

Written by researchers, faculty, and other scholars

Written for other experts in the field, using that field's language or jargon

Advances research and discovery in a particular field

Includes cites and references for all sources

Reviewed by experts for quality of research and findings before publication

### Examples

*JAMA: The Journal of the American Medical Association*  
*American Journal of Public Health*  
*PLoS ONE*  
*Reproductive Health*

## RELIABLE

Written by professionals who might not be experts

Written for a more general audience, though may use professional jargon

Shares information, facts, and data for a variety of purposes

Sometimes includes cites and references

May be reviewed or fact-checked by editors or other professionals

### Examples

*New York Times*  
*Scientific American*  
*Nation*  
*Discover*  
*Mother Earth News*  
*Time*  
Government Documents  
Organizational Reports
